

GANESH KUMBHAR

Fullstack Developer (MERN | Next.js)

+91 9096378354 | ganeshhh2003@gmail.com | [GitHub](#) | Portfolio: [gktechhub.com](#) | [LinkedIn](#) | Pune, Maharashtra – 411004

PROFESSIONAL SUMMARY

Fullstack Developer with 1.6+ years of experience building scalable MERN stack applications and optimizing performance for production systems. Skilled in designing REST APIs, implementing secure authentication, and improving application speed using SSR and efficient rendering techniques. Contributed to micro-frontend architecture and delivered features used by 5000+ active users.

SKILLS & TECHNOLOGIES

- Frontend:** React.js, Next.js, Redux Toolkit, Context API, HTML5, CSS3, Tailwind CSS, Bootstrap
- Backend:** Node.js, Express.js, REST API Development, API Integration
- Database:** MongoDB (Schema Design, Query Optimization), MySQL
- Tools:** Git, GitHub, CI/CD Pipelines, AWS, NPM, Jest, Redux Toolkit, Webpack, Babel
- Other:** JWT Authentication, OAuth, Responsive Design, Debugging, Performance Optimization, Secure Application Development

WORK EXPERIENCE

SevenMentor Corporate Services | Pune, Maharashtra - 411004

Fullstack Developer | Full Time

February 2025 – Present

ReactJs Developer | Internship

October 2024 – January 2025

- Developed and maintained 5+ production-level MERN applications, supporting 5000+ active users across CMS, LMS, and billing platforms.
- Designed and implemented 15+ RESTful APIs, ensuring efficient data flow and handling concurrent user requests.
- Improved application performance by 30–40% by implementing server-side rendering (SSR) and optimizing frontend rendering.
- Built reusable UI components used across multiple modules, reducing development time by nearly 25%.
- Implemented secure authentication and email workflows using NodeMailer with OAuth2.

KEY PROJECTS

SevenMentor Digital Ecosystem (Microfrontend Architecture)

- Designed a scalable micro-frontend architecture supporting multiple web applications within a unified system.
- Developed a dynamic CMS platform allowing admins to create and manage 50+ SEO-friendly pages.
- Reduced initial load time by nearly 35% using SSR and optimized asset loading strategies.
- Integrated secure email services using NodeMailer with OAuth2 authentication.

Dream Homes | [Source Code](#)

Technologies used: MERN | Tailwind CSS

- Developed a full-stack platform with secure authentication and role-based access control.
- Implemented property search, filtering, favorites, and user profile management feature.
- Built an admin dashboard for managing listings and user data.
- Integrated secure email functionality for user communication workflows.

CERTIFICATIONS

- | | | | |
|-------------------------|------------------------|------------------------------|-----------------------|
| • React | HackerRank June 2024 | • JavaScript | HackerRank May 2024 |
| • CSS | HackerRank June 2024 | • MySQL | HackerRank Nov 2023 |

ACHIEVEMENTS

- Earned Gold Badges in JavaScript and Java on HackerRank by solving 50+ coding challenges.
- Scored 90+ in SSC, HSC, and Engineering Mathematics, proving strong analytical and problem-solving skills.

EDUCATION

Bachelor of Technology (B.Tech.) in Electronics and Telecommunications Engineering | CGPA: 8.4

Karmayogi Institute of Technology Shelve, Pandharpur (Aug 2020 – Aug 2024)

Solapur, Maharashtra
